Designing For A Secure Future
c/o Plan It Washington
2817 A South Woodrow St.
Arlington, VA 22206

Symposium Objectives

Our security responses have a tremendous impact on our communities, our economy, and our perception of the future. The *Designing For A Secure Future* symposium will host national experts from the security, design, policy, and technology fields to discuss and learn how our society can better assess and integrate security measures into our everyday lives.

Who Should Attend

- Government officials
- Security industry representatives
- Engineers, Architects
- Landscape architects, Planners
- Contractors & Developers
- Insurance firms

Conference Highlights

- Nationally Acclaimed Security Design Experts
- Primo Networking Opportunities
- Tour Ground Zero
- Broadway In Your Backyard!
- Beautiful Hotel Facility In The Heart Of NYC
